

PROJECTS

This department welcomes brief notes and article-length manuscripts. The former may include announcements of contemplated or ongoing projects, information on doctoral theses in progress or completed (writer, title, institution, supervisor, and available information on completion time), proposals and questions, and requests for assistance. Announcements of individual research projects, including theses, are very important to avoid awkward and wasteful duplication of effort. Articles will ordinarily describe projected, in progress, or completed large-scale projects involving one or several scholars and should follow the same standards as other articles.

G.W. LEIBNIZ, SÄMTLICHE SCHRIFTEN UND BRIEFE

Dr. Walter S. Contro and Professor E. Knobloch are preparing the first volume of the third series (Mathematical Natural Science and Technical Papers) of the Academy edition of G.W. Leibniz, *Sämtliche Schriften und Briefe*. The work is scheduled for publication in the autumn of 1981.

Professor Knobloch is also preparing a source book concerning the history of probability theory which will be published in Darmstadt.
